Gov. Pattison Pulls Gen. Snowden Off His Perch-Soldiers Most For the Future Obey the Civil Authorities-Bitter Feeling Against Them.

PITTERURGH, Pa., July 23 .- The big steel mill at Duquesne is quiet and the 750 employes are out on a strike in sympathy with the locked out men at Homestead.

At 6 o'clock last evening all the workmen from the skilled men down to laborers left the mill determined not to return to work until the Homestead matter shall have been adjusted and the Amalgamated association recognized by the Carnegie Steel Co. The strike was a surprise because until recently the Duquesne has been a non-union mill. Within the past two weeks the Amalgamated association organized a lodge here and the strike is said to be backed by that powerful labor organization. A large meeting was held yesterday evening at which addresses were made to the strikers by one of the Amalgamated association. The men claim the Duquesne is one of the most important mills owned by the Carnegie company and that being shut down will be a serious blow to the firm.

Givil Authorities in Control. HOMESTEAD, Pa., July 23.-The Pennsylvania militia were last night taught their proper place. It was a stern lesson, administered by Gov. Pattison personally. At the governor's suggestion of deputy sheriffs were placed throughout the boreagh of Homestead to supplant the unlimited military control that had been gradually established. The soldiers are now to aid the civil authorities, and not to be their superior. The sheriff of the county, or his representatives, are to be the ones to say when the danger point has been reached by assemblages of citizens, the men in uniform with guns in their hands being no longer to constitute themselves at will judge, jury and executioners.

The deputy sheriffs installed last evening number sixteen in all, and in Sheriff McCleary's absence are directed by Chief Deputy Brady, who is authorextent to preserve order and maintain the peace.

Gen Snowden admitted that he was aware the installations of the sheriff's representatives was Gov. Pattison's own suggestion. The general declined to define where the respective line of authority of the military and deputy sheriffs lay and refused to discuss the reasons for the change in the situation.

Bitter Feeling Against Soldiers. HOMESTEAD, Pa., July 23.-The soldiers were more vigorous yesterday than usual in clearing the streets. Crowds were not permitted to gather anywhere rers on the side onene loit walk were rather roughly crowded away and consequently some other were developed bitter feelings among the striking men. Indeed, the complete change in the attitude of the town toward the camp was more plainly shown yesterday than heretofore. No attempt to speak to any of the soldiers was made by any of the citizens. On the contrary, the militia were regarded with gloomy silence or with suppressed oaths. The women were even more bitter than the men in their language about the troops, and a prac-tical boycott was established among the more radical of the strikers.

# COKE WORKERS MOVING.

Serious Extension of the Homestead Strike

PITTSBURGH, Pa., July 28 .- The sympathetic strike movement among the workmen in the employ of the Carnegie company is assuming rather alarming proportions, and if rumors now current prove correct the strike will prove one of the most aggressive in the history of strikes in the world. The latest branch of labor to take active part in the movement in aid of the Homestead locked out men and the Amalgamated association is the coke workers and miners in the works operated by the company. Reports come from the Frick regions that missionaries have been sent among these men, and are making efforts to induce them to come out in a body. This, if successful, would shut off the supply of coke for the blast furnaces and would compel a suspension. What progress has been made is not known, but the leaders say the movement is meeting with great encouragement. A leading man among the Connellsville coke workers, who was in Pittsburgh yesterday, said the sympathies of the men in that region were with the Homestead strikers, and that this sympathy was being crystalized into a more material

When this was stated to Secretary

Lovejoy he said:
"This is the first intimation that I have had that such a move was contemplated, and if made of course it would be a serious matter."

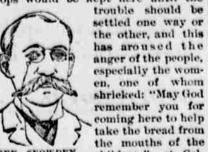

Dashed Down Grade. SALT LAKE CITY, U. T., July 23.-A freight train on the Rio Grande & Western broke in two near Soldier Sumgrade at frightful speed The caboose lowed. Conductor J. W. Harper bad

## TROOPS IN CONTROL.

Gen. Snowden Declares That He Will Resettled.

HOMESTEAD, Pa., July 21 .- Gen. Snowdden declared last evening that the troops would be kept here until the

GEN. SNOWDEN. children," at Col. Greene, the officer in command nearest the Carnegie property and close to the strikers' headquarters.

The fact is pointed out that the information has been made public by Gen. Snowden exactly at the critical juneture when it could be circulated in print the last day before the one set by Superintendent Potter as the final limit in which applications to work would be received from the strikers and to endeavor to counteract this, the strike leaders have arranged for a picnic under the auspices of Munhall lodge of the Amalgamated organization at Big Spring grove, from which a view of the steel works can be had.

In the works yesterday 150 men were at work, most of them new employes. Four armor plate furnaces were charged and work will be fully resumed to-day. The melting, open hearth and mechanical departments were also worked in a desultory way. The works were started without repairs because of inability to secure mechanics to make the repairs.

# VERY FEW AT WORK.

a body of police officers in the persons Not Many Workmen in the Homestead Plant.

HOMESTEAD, Pa., July 21.-Entrance to the Carnegie mill was made by a representative of the Associated press, who took a skiff on the Monongahela river and succeeded in making a landing at a point, which, owing to the steepness of the bank, was left unguard-It was within twenty yards of the place where the Pinkerton barge first tried to tie up. A climb up the thirty feet of slag and cinders bordering the river brought the armor plate department within a few steps, and once inside access from one to another of the eight principal buildings was not difficult. Each of the buildings was visited not once merely, but ized to call in the military to the fullest twice, and a glance inside was not taken as satisfactory, but a walk as nearly as possible straight through the center of each of the great structures

A careful count on each tour was kept as to the number of persons met. It was not an estimate, but an actual count, one by one, of every human being seen in the Carnegie works, except those wearing a militiaman's uniform. Each time the total included persons count-He denied emphatically that any differ-ence existed between himself and Gov. ed twice or oftener, they being recognized as having passed the newspaper man more than once, but in no such case was any deduction made from the total, the purpose being to obtain absolute figures and not an "estimate." The total on the first tour was sixtyfive. The count on the second tour was sixty-three.

# NOTIFIED.

Cleveland and Stevenson Formally Noti-

fled of Their Nomination—The Ceremo nies Made Public. New York, July 21. - Madison square garden was filled with enthusiastic democrats last evening, the occasion being the notification of Grover Cleveland and Adlai Stevenson as candidates for president and vice-president. The great ovation of the evening was reserved for Grover Cleveland. As he entered the hall he was received with enthusiastic applause. When silence was finally restored Chairman William L. Wilson, of the notification committee, stepped to the front of the stage and faced the ex-president. Mr. Cleveland arose at the same time and Mr. Wilson delivered an address.

During Mr. Wilson's address Mrs. Cleveland, who had been detained, strove to enter the hall unobserved, but the audience caught sight of her and cheered vociferously.

At the conclusion of Chairman Wilson's address the secretary read the formal notification to Mr. Cleveland, at the close of which the ex-president responded at some length.

Immediately after Mr. Cleveland had resumed his seat Hon. Stephen V. White, of California, addressed Gen. Adlai E. Stevenson, and the secretary read the formal notification, which was responded to by the nominee for vice president.

Immediately after Gen. Stevenson's speech the meeting adjourned and the delegates repaired to the Manhattan club and any who chose and could entered and greeted them with handshaking.

Locked in Each Other's Arms. RALEIGH, N. C., July 21.-News was received of a sensational occurrence at Franklinville, Randolph county. Henry Parks and Maud Curtis, who were engaged and about to be married, were in a boat on a pond. The boat capsized in water twenty feet deep. Twice they sank, and the third time as they went down they were locked in each other's arms. People on the shore saw their tragic death. Parks was 23. Miss Curtis was 19 and she was strikingly pretty.

Three hours later their bodies were

found, still in close embrace. Cotton Press Combine. NEW ORLEANS, July 21. - The various mit and the rear half dashed down cotton presses have agreed upon a tariff grade at frightful speed. The caboose of charges. An increase of five cents jumped the track and other cars follower bale is charged on account of the concessions recently granted labor. his thigh broken, his shoulder disio. The different presses have already cated and sustained concussion of the made contracts with leading patrons brain and internal injuries. Brakeman covering the year beginning September, and so the combination rate will not be widespread in its effects. The most important feature of the combination is the fact that it shows a desire to combine among the presses and it is generally asserted that within the year most of the presses will be under one management

## MURDER CHARGED.

Information Filed Against Homestead Lenders Charging Them With Murder-Similar Proceedings Against Frick and Other Carnegie Masagers.

PITTSBURGH, Pa., July 19 .- Yesterday ifternoon Secretary Lovejoy, of the Carnegie Steel Co., appeared before Alderman McMasters and filed informations againt seven of the Homestead strikers, whose arrest on the charge of murder has been threatened for some days. The informations, although not entirely unexpected, caused considerable surprise and excitement and was the subject of conversation on the streets all the afternoon and evening. They were against Bugh O'Donnell, the leader of the strikers; John McLuckie, burgess of Homestead; Sylvester Critchlow, Anthony Flaherty, Samuel Burdett, James Flannagan and Hugh Ross, who are collectively charged with the murder of T. J. Connors and Silas Wayne on the morning of July 6, during the riot.

Connors was a Pinkerton man, 30 years of age and lived in New York. He was struck on the back of the head with a dynamite bomb and had his right arm crushed. Wayne was a young, single workman, who lived with his parents in Homestead. He had his head shot off with a cannon shot fired from the opposite side of the river while standing with his brother in the steel yard. There are two separate informations against the defendants and only vary in the names of the victims.

To show that the workmen had no fear about the results of the case Burgess McLuckie as soon as the news reached him sent word to Alderman McMasters that he would come to the city and surrender himself. A report was started that counter informations are to be made against II. C. Frick and Secretary Lovejoy and the general impression is that this is only the beginning of the legal struggle at Home-

stead. There was considerable conjecture as to whether any of these defendants would have to remain in jail or not until the grand jury sits in September. An attorney said the court could release them on bail, the amount of which would be determined by the evidence as to the character of the offense and the culpability of the defendants. In case Messrs. Frick, Lovejoy and Pot ter are arrested they will be compelled to go to jail or be released in the same way. Alderman McMasters said that he expected informations to be made

against the managers.

A COUNTER MOVE.

PITTSBURGH, Pa., July 19.—It was learned that William J. Brennan, counsel for the Amalgamated association, was in conference with President Weihe and that it was probable information against Messrs. Frick, Lovejoy and Potter would be made within the next twenty-four hours. The charge will be based on the introduction of Pinkerton men with arms.

## THOUSANDS LOST.

Bewailing Calamity in the Malay Archipelago - An Island Destroyed. LONDON, July 19.—The steamer Cat-

terthun, which has arrived at Sidney, New South Wales, reports that when she touched at the island of Timor, there was a rumor current that the island of Sangis, in the Malay archipelago, had been destroyed by a volcanic eruption and that the whole population, comprising 12,000 souls, had perished. The Catterthun steamed for miles through masses of volcanic debris.

A native from the Talatee islands, who landed at Selangan, reported that several other natives had just returned from a voyage near Sangir. They had intended to land on the island, but were prevented by the sight of mountains belching forth smoke and fire. They reported that the "whole island was on The water along the coast was full of half burned wrecks and pieces of houses and charred bodies, they said. The whole population, estimated at about 12,000, seemed to have been swept into the sea or burned, as not a living soul was to be seen. Streams of lava were still flowing toward the shore, showing that the activity of the volcanoes had not abated.

The steamship Catterthun to Sydney brought a similar story with it into port yesterday. Near Sangir, the cap-tain said, it had passed through miles of debris unlike anything he had before seen at sea. Poles and sides of huts, most of them charred and broken, were mingled with such utensils as the natives of the Philippines use in cooking. Many unrecognizable objects, resembling charred human trunks, were also seen. The ship was three hours and a

half in passing through the wreckage. These reports are partially credited here, although they are believed to have been exaggerated. The formation of the island is volcanic, and several small craters near the center are known to have threatened activity during the last ten months.

Rose Terry Cooke Dead.

SPRINGFIELD, Mass., July 19.-Mrs. Rose Terry Cooke, author, died at Pittsfield at 10 o'clock this morning. Mrs. Cooke was best known as a writer of short stories. She was born in West Hartford, Conn., sixty-five years ago February 17 last. She graduated at the Hartford Female seminary in 1843, and in 1873 was married to R. H. Cooke at Winsted, Conn. Her first work, "Poems by Rose Terry," was published in 1860. "Happy Dodd" was given to the world in 1879, "Somebody's Neighbors" in 1881 and "Root Bound" and the "Sphynx's Children" in 1886. Her short stories were mainly de-scriptive of New England life. Several were humorous. Her best known poem is "The Two Villages."

Wire Works Closed. PITTSBURGH, Pa., July 19.—The Home stead steel workers' strike has indirectly caused the indefinite suspension of

kin station and 600 men are out of work. The mills, nail, rod, barbed wire and wire drawing departments have all closed down owing to a lack of stee! billets to make wire rods, etc. The company will take the present opportunity to make important improvements at the plant and eight new barbed wire ma-chines will be put in, which means thirty additional men when the plant

the Braddock wire works plant at Ran-

Belta and Girdles.

The Empire belt or girdle is worn very extensively with gowns having the Watteau back. Often it is a very wide ribbon, and again it is formed in folds of white silk, five in number, that make it reach up and give the shortwaisted effect that is considered desirable. Girls with very small waists are wearing rather broad belts fastened at one side with a really fat rosette. This is placed right on the belt itself, slightly to one side of the front. - Ladies' Home Journal.

A Western Triumph. The wonderful progress of Chicago in the manufacturing field during the past decade manufacturing field during the past decade has proved a genuine eye opener to Eastern people, and many of her own citizens while dimit conscious of her growth in this respect are not fully alive to the immense benefit which accrues to the city by the gradual location of great manufactories in her vicinity. In every day lines such as packing, milling and kindred industries Chicago has long been acknowledged the "King Bee," but it will surprise most people to learn that in the manufacture of "King Rec." but it will surprise most people to learn that in the manufacture of musical instruments also, the largest factory in existence is lecated in Chicago. Nevertheless it is a fact that Lyon & Healy turn out more goods annually than any similar factory in the world. Last year their output was upward of 100,000 musical instruments and this year judging by the increase thus far the result will be considerably greater. The instruments made by them include Punes, Organs, Harps, Guitars, Banjos, Mandolins, Drums and band instruments, and the quality is so far superior to the European product, that the consumer cheerfully pays more money for the home-made article. To the thinking mind it is a real pleasure to know that our people have made such remarkable proggress in this artistic line, and to the Western man particularly it is a matter of pride rn man particularly it is a matter of pride know that to his section belongs this high distinction.

A GREAT Go.—"How does your new errand boy go, Smith?" "The long way, apparently, every time."

## To Summer Tourists.

The season is at hand when the man of af-The season is at hand when the man of affairs, the man who through the long winter months has devoted his best energies to the tasks and problems of the counting room, the office, the pulpit, or legislative halls; when the matron and the maid, wearied of the long season of social galety or confinement in the school, or lecture room, betake themselves to the sea shore, the mountains, the country or the swings in scarch of the country or the springs in search of pleasure and rest. The Missouri, Kansas & Texas Railway has placed on sale summer to this trickers at very low rates, with long transit limits, good to return until October 1st or 15th. Every variety of amusements and the most picturesque of surroundings are thus placed within the
